

We are pleased that 2016 has got off to a great start here at London Shutters with one of our first installations in E5 Hackney. It's a fabulous location and this house was no exception when we say that the surrounding streets had beautiful properties, often well on the way to be million pound houses!

Our headless installer in this photo (whoops!) had everything to hand for a smooth job.

Greener living:

Many of our customers naturally (and wisely) choose neutral shades for their shutter installations. However one of the inherent advantages of using natural hard wood shutters is that we can paint match almost any colour under the sun!

That was the case with this project, as we matched the clients favourite green tones to the custom painted shutters, and we think they worked out as a real winner. With stark white walls looking so clean, it is perfect to add a splash of colour with custom coated window coverings. Naturally we're happy to create something bespoke and we think you'll agree that the finished colour works perfectly in this lounge.

Fitted to double height bay windows in rooms with oversize ceilings, our pair of qualified installers had no problem perched on the ladder as pictured and fitted these wooden products flawlessly.

Custom designed and made:

We cannot stress enough how happy we are to design and manufacture custom shutters in solid hard woods for our customers!

These green shutters are the perfect example of what we can do, with powder coated finishes that will last for years, which create a welcome colour in a neutrally decorated Hackney bay window.

Hinge details:

Not only can our wooden slats and frames be custom powder coated, but the hinges as pictured here are matched to your exact specifications.

There is a cost implication to custom colouring products, but we are sure you will agree that it is well worth it as these are completely unique to you!

At London Shutters we go the extra mile for our customers, from **Dulwich** to **St. Albans**, **Bristol** to **Brighton** we will visit you at your home! Why not get a free quotation from our website and get ready to transform your windows!
